

**SUPPLEMENT INDUSTRY UNDER UNPRECEDENTED FULL SCALE GLOBAL ASSAULT:
WHAT YOU CAN DO TO FIGHT BACK**

By: John Hammell, President

Donate to the Alliance for Natural Health (ANH) lawsuit to overturn the EU Food Supplement Directive,

WHY? See International Advocates for Health Freedom (IAHF):

NUTSHELL SUMMARY: The pharmaceutical industry is pulling out all the stops this summer to set the stage for the total annexation of the dietary supplement industry. In Australia the TGA (their FDA) yanked over 1600 dietary supplements from the shelves under false pretenses See article Natural Justice?
<http://www.iahf.com/asia/20030520.html>

Massive pressure is being put on New Zealand, and Canada to harmonize their vitamin regulations to Australia's overly stringent pharmaceuticalized regulations, while all the EU nations will be required by July to harmonize their vitamin laws to the mindlessly restrictive EU Food Supplement Directive by July..... **UNLESS** it is overturned by the lawsuit that Alliance for Natural Health will be filing (and for which they badly need donations from consumers world wide. See <http://www.iahf.com/anh-lawsuit.html>

In Canada, the government was scheduled to gazette new regs on June 18th to harmonize Canada to Australia-going totally against the will of the people. A pitched battle is ensuing led by Trueman Tuck of Friends of Freedom,
<http://www.friendsoffreedom.org>

In the USA the FDA will be coming out with illegal Good Manufacturing Practice Regulations which will exceed the mandate of the Dietary Supplement Health and Education Act which only allows them to come out with food based GMPs. The regulations they're coming out with are an attempt to harmonize the USA to Australia's pharmaceuticalized regulatory system which just allowed the TGA to engage in a fraudulent recall of over 1600 products under false pretenses. TGA Australia) used site licensing as a weapon to wrongly shut down Pan Pharmaceuticals, the largest supplement manufacturer in Australia. They'd like to use the same weapon in the USA and to create a media circus similar to the one the Australian press generated in the wake of the Pan recall.

WHY YOU MUST DONATE TO ANH: HOW THIS PERTAINS TO AMERICA:

Unless we overturn the EU Food Supplement Directive, there will be no way to stop a really dangerous vitamin standard from being rammed through to completion at CODEX. The EU is going to expand by 10 new nations in 2004- and that will enable the Cartel to do whatever they want at Codex. The USA has been set up for harmonization via a whitewashed Codex vitamin oversight hearing on March 20, 2001. The fix is in. This forces us to assist our international allies- we have no choice but to play an international game to defend our own access. See the letter from Congressman De Fazio and Congressman Paul to Congressman Burton for clarification <http://www.iahf.com/index2.html> Too bad Burton wrongly ignored this letter. The only way we can monkeywrench the cartel's takeover now is to donate to the ANH lawsuit Do that via <http://www.alliance-natural-health.org>
